VICTORY OVER PAIN.

The Picture of the New Life as It is Anticipated.

There Will Be No Pain Nor Sorrow There—Neither Will There Be Blessed Hopes in the Eternal City, According to Rev. Dr. T. DeWitt Talmage, D.D.

Rev. Dr. Talmage has selected as the subject of his Sunday's sermon through the press "Victory over Pain," a text chosen being Revelation xxi, 4, "Neither shall there be any more pain."

The first question that you ask when you think of change your residence to any city is, "What is the health of the place?" Is it a place of health and vigor? What are the bills of mortality? What is the death rate? How high rises the thermometer? And am I not reasonable in asking, "What are your evils and plagues and miseries?" In which we all hope to move? My text answers it by saying, "Neither shall there be any more pain."

I mean, there will be no pain of disappointment in Heaven. If I could put the picture of what you anticipated of life when you began to be the picture of the world, I would find a great difference. You have stumbled upon great disappointments. Perhaps you expected to be a millionaire, but you are not; you have planned and worried and persisted until your hands were worn and your brain was dulled and your heart was faint, and at the end of this life you find that you have not been positively better off than you were at the beginning. It has been a vain battle.

Perhaps you have had a great desire to be a doctor, but you are not; you have planned and worried and persisted until your hands were worn and your brain was dulled and your heart was faint, and at the end of this life you find that you have not been positively better off than you were at the beginning. It has been a vain battle.

Perhaps you have had a great desire to be a lawyer, but you are not; you have planned and worried and persisted until your hands were worn and your brain was dulled and your heart was faint, and at the end of this life you find that you have not been positively better off than you were at the beginning. It has been a vain battle.

Perhaps you have had a great desire to be a statesman, but you are not; you have planned and worried and persisted until your hands were worn and your brain was dulled and your heart was faint, and at the end of this life you find that you have not been positively better off than you were at the beginning. It has been a vain battle.

Perhaps you have had a great desire to be a scholar, but you are not; you have planned and worried and persisted until your hands were worn and your brain was dulled and your heart was faint, and at the end of this life you find that you have not been positively better off than you were at the beginning. It has been a vain battle.

Perhaps you have had a great desire to be a hero, but you are not; you have planned and worried and persisted until your hands were worn and your brain was dulled and your heart was faint, and at the end of this life you find that you have not been positively better off than you were at the beginning. It has been a vain battle.

Perhaps you have had a great desire to be a saint, but you are not; you have planned and worried and persisted until your hands were worn and your brain was dulled and your heart was faint, and at the end of this life you find that you have not been positively better off than you were at the beginning. It has been a vain battle.

Perhaps you have had a great desire to be a king, but you are not; you have planned and worried and persisted until your hands were worn and your brain was dulled and your heart was faint, and at the end of this life you find that you have not been positively better off than you were at the beginning. It has been a vain battle.

Perhaps you have had a great desire to be a queen, but you are not; you have planned and worried and persisted until your hands were worn and your brain was dulled and your heart was faint, and at the end of this life you find that you have not been positively better off than you were at the beginning. It has been a vain battle.

Perhaps you have had a great desire to be a prince, but you are not; you have planned and worried and persisted until your hands were worn and your brain was dulled and your heart was faint, and at the end of this life you find that you have not been positively better off than you were at the beginning. It has been a vain battle.

Perhaps you have had a great desire to be a princess, but you are not; you have planned and worried and persisted until your hands were worn and your brain was dulled and your heart was faint, and at the end of this life you find that you have not been positively better off than you were at the beginning. It has been a vain battle.

POOR PAINTERS.

Some of the Very Great Artists Are Poor Painters.

For some time past stories have been in circulation in Europe and this country, according to which the artist Munkacsy, on the ragged edge of poverty.

Munkacsy ever since he made a big hit with his "Christ Before Pilate" has been a high roller among the painters of his time. But no one knows what Munkacsy is really like, except his own reports of his impetuosity get their start.

One of the partners of a great London art house, who is now in this city, gives a plausible theory upon this point. According to this argument the attacks—such as, in fact, they are—of the London art world, which took hold of Munkacsy when he first made a reputation, and who, getting him under contract, boomed him for years and regarded the lion's share of profit from the sale of his works.

A couple of years ago, according to the Englishman, this contract expired. Munkacsy from this time forward, it is understood, managed his own affairs.

This did not conduce to good feeling between him and the dealer, of course, and would not be astonishing if it were really the fact, as the London claims, that the unfriendly and irritating remarks of the artist, emanating from this source—not from malice or a venal spirit so much as from a calculated policy to force him to renew the contract.

Such things have happened before. It is a notorious fact that Meisner for years practically a slave to the dealer, to the London dealer, kept him in debt by heavy advances of money, and so controlled his pictures. They paid him a certain price for his works, and charged their own price for the sale.

Meisner himself did not probably receive more than a third of the amount for which his production sold. In the later years of his life, and thereafter made his own terms.

Munkacsy undoubtedly proposes to do the same thing. He has declared that he will not be a slave to the dealer, and he will not be a slave to the dealer.

There are some other French artists who come to this country with a view to making a fortune,

THE CLIMAX.

WEDNESDAY, - - NOV. 7, 1894.

—Four weddings to report in January.

—Smith Myers has accepted the position of night clerk at the Richmond Hotel.

—The slaters are working on the roof of the new school building and will soon have it under cover.

—The Richmond Silver Band went to Winchester Saturday to jolly the campaign boys up a little.

—The weather on Monday was disagreeable to every person, whose business made it necessary to stand on the streets.

—Streng's Clock and Watch opening Friday and Saturday will be one of the events of the season. Do not fail to see it.

—There was lots of Democracy and Republicanism on tap Monday and Tuesday. Enthusiasm in half-pints, pints and quarts.

—Claude Smith & Co. call attention to the fact that they make a specialty of stoves and will give you a satisfactory bargain. Call and see their stock.

—We had a young cyclone Friday, which blew shingles from the houses, loose bricks from chimney tops and tumbled things and people at a lively rate.

—Capt. Cash, of Foxtown, was in town Monday. The Captain is the "highliest" kind of Democrat, and nothing pleases him better than a wholesale Democratic victory.

—Col. T. B. Denmore, the well known prohibitionist and a late candidate for Congress from the Eighth district, has sold his College Hill farm and will shortly move to Louisville.

—The election in Madison county passed off without any unpleasant features to mar the day. The vote was evenly split, but few persons were loitering on the streets.

—The locomotive on train No. 1 running east on R. N. L. & R. R. Friday set fire to the fences, crossed a stream and on the farm of Joe Eubank, near Moberly, causing considerable damage.

—Our dry goods stores have closed openings, shoe stores have had openings, saloons have bottle openings, the hotels and restaurants have month openings. What to hinder our city shops having openings.

—Sum Rive, an employee of Wallace's saw mill, near Berea, while out cutting timber, was caught by a falling tree and crushed to death last week. The unfortunate man came here from Tennessee only a few days ago.

—The At Home was of W. M. H. Craig and wife are out for November 10th at their home, 1217 W. Broadway, Louisville, Ky. The wedding took place at the residence of the bride's father, M. B. Hunt, at Fern, Oldham county, on the 24th ult.

—J. Leonard Hainline emptied his colossal sample trunks before the gaze of a host of merchants on court day, and sold many goods that it will require an extra freight train to bring them here. Leonard never does anything by halves; he belongs up in G.

—It is said that the good people of Sharnburg are scandalized by a lady cyclometer who wears blouses. The masculine element of Richmond are anxiously awaiting the coming of a similar sensation. They are evidently pining to be scandalized thusly.

—H. D. Shifflet, administrator of the estate of C. D. Shifflet, deceased, will sell to the highest bidder on the 20th inst. all the personal property of said estate. Sale to be at 10 o'clock a. m. Hogs, cattle, horses and farming implements are among the articles to be offered.

—Somebody's stock is turned loose at night in the north end of town, and is a great annoyance to property owners. Gates are broken down, fences crushed, and the stock runs freely in the enclosure, eating off the scrubbery, etc. What is the remedy? This should be somebody's business.

—A fatal shooting took place at Athens, Fayette county, last night. James Greer, who was a candidate for Marshal, shot George Looney through the abdomen, inflicting wounds from which he will die. The men had been enemies for years. Looney was 28 years old and unmarried.

—In making local paragraphs relative to the merits of the Democratic candidates and appealing to the voters in their behalf last week, those relative to John E. Wagoner, Jailer, and John F. White, County Clerk, were omitted in making up the forms, by an oversight. We regret the apparent slight of these worthy gentlemen.

—Friday at noon as Mr. Schofield and his son were leaving their residence the wind blew a limb off of a tree striking the gentleman in the head and face. He was knocked to the ground and carried to the hospital, where he died. He was taken into the house where his injuries were dressed and is now able to be out again.

—Mr. James W. Garrison, who lives on the farm between Foxtown and Bowersboro was shot in the left arm by Asher Hall, on the morning of November 1st. Mr. Hall was accompanied by Robert Simpson. The cause of the trouble was on account of a disputed fence which had just been torn down by Mr. Garrison. Garrison and Simpson both claimed the land. Garrison's arm was amputated by Dr. Foster Thursday night. A writ has been issued for Hall. The amputated arm was carried to the family burying ground on Drowning Creek.

—Madison was There.

At the State Women's Equal Rights Society held at Lexington, recently, Madison was well represented. Mrs. James Bennett, Mrs. Mary B. Clay and Miss Laura Clay were prominent in the convention and elected to the highest offices.

—Court Day.

AMORY 1,000 head of cattle were offered for sale. The prices ranged from 12c to 30c, owing to qualities. Very few high grade cattle on market. The sales were not as brisk as on last Court day, and not as large a proportion sold at that time. Madison is fast becoming the greatest cattle market in Central Kentucky, and now with the best, both as to the number of buyers and the amount of stock offered. The mule and horse market was exceedingly dull. Topsy driving or saddle horses were in demand also were a class of small bucking mules suitable for use in mines. The need of stock yards at this point is becoming more apparent each day. In this connection the direction should be made. This could be made a source of reasonable profit, as well as of a great convenience to the public.

A late communication from Superintendent Thompson in regard to the November 17th, and on the following Saturday, the 24th, there will be a meeting at Bearwallow. Teachers, please bear this in mind, as some of you are laboring under the impression that the meeting at Bearwallow precedes the one at Kirksville. We have not seen a program of these meetings, so are unable to give them before next week.

The association at Foxtown has been pronounced one of the most successful meetings of the season. While the attendance was not so large as at some of the previous meetings, great interest was manifested, some of the discussions growing exceedingly warm and eliciting many good thoughts and suggestions from a number of the gentlemen.

The next meeting of the association will be held at Kirksville on Saturday, November 17th, and on the following Saturday, the 24th, there will be a meeting at Bearwallow. Teachers, please bear this in mind, as some of you are laboring under the impression that the meeting at Bearwallow precedes the one at Kirksville. We have not seen a program of these meetings, so are unable to give them before next week.

Three new pupils were enrolled in Caldwell High School on Monday morning. This swells the list to 240, which is a goodly number. She is by Dictator and her dam, Ethelwyn, 2:33 (dam of Orator, 2:24), is bred like Maud S., being by Harold, dam by Pilot Jr.; second dam thoroughbred. Impetuous is a mare that should improve with age and make a very great race mare.

In the race in which Impetuous was second, the horse of 2:30, Oakland Baron was second in both heats, scoring fourth in the first and third in the second heat, and Kilona third in the first and fourth in the second.—Ex.

How often our horses go lame soon after being shod by the best blacksmith, who thinks he is a scientific horse shodder, but knows nothing of the veterinary laws of conformation; he makes all kinds of mistakes in his shoeing. The breeding of Impetuous gives full warrant not only for her speed, but also for the courage and tenacity which she shows in her races. There is no medicine so often needed in every home and so admirably adapted to the purposes for which it is intended, as Chamberlain's Pain Balm. Handy in every household, it is a member of the family has need of it. A toothache or headache may be cured by it. A touch of rheumatism or neuralgia quited. The severe pain of a burn or scald promptly relieved and the sore healed in much less time than when medicine has to be sent for. A sprain may be promptly treated before inflammation sets in, which incurs a cure in about one third the time otherwise required. Cuts and bruises should receive immediate attention before the parts become swollen, which can be only done when Pain Balm is kept at hand. A sore throat may be cured before it becomes serious. A troublesome corn may be removed by applying it twice a day for a week or two. A lame back may be cured and several days of valuable time saved, or a pain in the side or chest relieved without paying a doctor bill. Procure a 50 cent bottle at once and you will never regret it. For sale by W. F. Powers and T. S. Hagan, druggists.
